- SASS , SCSS
- Tailwind CSS
- Bootstrap
- Git , Github , Gitlab
- Javascript
- Typescript
- Rest API
- React JS
- Next JS
- Redux
- Ant design
- Material UI

SUMMARY

Frontend-focused developer with 4+ years of practical experience building modern, responsive web applications and polished user interfaces.

Specialized in React, Next.js, TypeScript, Tailwind CSS, and modern UI and animation libraries, with experience building complex dashboards, interactive interfaces, and scalable frontend systems. I enjoy turning ideas and designs into fast, intuitive, and purposeful digital experiences.

Beyond frontend development, I work across the MERN stack, integrating REST APIs, real-time communication, backend services, and AI-powered features. I collaborate closely with AI/ML, DevOps, QA, UI/UX, and backend teams in Agile/Scrum environments to deliver reliable, production-ready applications.

EXPERIENCES

Mid-level Frontend Web Developer

Planned

Mar 2025 – Present

Dubai, UAE - Remote

Information Technology & Services

- Collaborated within Agile/Scrum teams alongside AI/ML, DevOps, QA, UI/UX, and backend teams to deliver high-quality web solutions.
- Developed responsive landing pages, dashboards, and modern interfaces using React.js, Next.js, TypeScript, Tailwind CSS, and libraries such as Framer Motion.
- Integrated AI-powered services, RESTful APIs, WebSockets, and real-time communication features while working closely with AI/ML and backend teams.
- Applied SOLID principles, reusable component patterns, and clean architecture practices to build scalable and maintainable codebases.
- Performed extensive testing, debugging, and performance optimization in collaboration with QA teams to ensure reliable and polished user experiences.
- Used Git and GitHub for version control, code reviews, collaboration, and efficient development workflows across teams.

LANGUAGES

- Persian (Native)
- English (Fluent)

Junior Frontend Web Developer

Conversion

May 2025 – Jul 2025

Tehran, Iran - Remote

Marketing Services

- Collaborated within Agile/Scrum teams through daily stand-ups and sprint planning to deliver high-quality web solutions on time.
- Developed and customized responsive WordPress templates using JavaScript, Tailwind CSS, and SCSS, based on design specs and client needs.
- Integrated RESTful APIs in coordination with backend developers, ensuring seamless functionality and performance.
- Participated in client and team meetings to gather requirements, provide updates, and adapt features based on feedback.
- Utilized Git and GitHub for version control, code collaboration, and efficient workflow management across multiple projects.

Junior Frontend Web Developer

Varexe

Nov 2024 – Feb 2025

Toronto, Canada - Remote

Information Technology & Services

- Collaborated within Agile/Scrum teams to enhance and streamline web projects, ensuring timely delivery and high-quality outputs.
- Developed user-friendly templates for e-commerce sales using React.js, Tailwind CSS and other web technologies.
- Actively engaged in customer projects, integrating feedback to tailor solutions that meet client specifications and enhance user experience.
- Collaborated closely with the backend team to seamlessly integrate RESTful APIs, ensuring optimal data flow and performance across web applications.

Junior Frontend Web Developer

Wins Group

Web Development Company

Nov 2023 - Aug 2024

Sabzevar, Iran - Hybrid

- Collaborated effectively within a team to develop and enhance web projects for clients and the company.
- Skilled in problem-solving and experienced in developing a teacher dashboard and Wins Academies landing page.
- Demonstrated proficiency in HTML, CSS, and JavaScript, translating design concepts into functional web interfaces.
- Engaged in teamwork to complete projects efficiently, ensuring high-quality and user-friendly outcomes.

Junior Frontend Web Developer

Hoosh Pardazan Kavir

Software Development Company

Jan 2023 - Nov 2023

Sabzevar, Iran - On-site

- Collaborated effectively within a team to develop and enhance web projects for clients and the company.
- Skilled in problem-solving and experienced in developing a teacher dashboard and Wins Academies landing page.
- Demonstrated proficiency in HTML, CSS, and JavaScript, translating design concepts into functional web interfaces.
- Engaged in teamwork to complete projects efficiently, ensuring high-quality and user-friendly outcomes.

Junior Frontend Web Developer (Learning)

MFT Sabzevar

Educational Institute

Apr 2021 - Jan 2023

Sabzevar, Iran - On-site

- Engaged in hands-on learning of frontend development principles.
- Collaborated on real projects to gain practical experience.
- Acquired proficiency in HTML, CSS, JavaScript, and responsive design
- Familiarized myself with React JS, Next JS, and mobile-first design.
- Participated in workshops and knowledge-sharing sessions.
- Developed teamwork and collaboration skills.

PROJECTS

Chabokan

Link : <https://chabokan.net>

Technologies Utilized : Next JS 15 , Tailwind CSS , Framer motion , Zustand.

Khane Bosch

Link : <https://khanebosch.com>

Technologies Utilized : Wordpress , PHP , JavaScript , Bootstrap , SCSS.

Roham social AI

Link : <https://rohamsocialai.de>

Technologies Utilized : JavaScript , Tailwind CSS.

Eama coaching academy

Link : <https://eamacoaching.com>

Technologies Utilized : Wordpress , PHP , JavaScript , Tailwind CSS.

Awat

Link : <https://awatcloud.com>

Technologies Utilized : Wordpress , PHP , JavaScript , Bootstrap.

Dr. Najafbeigi clinic

Link : <https://drnajafbeygi.com>

Technologies Utilized : Wordpress , PHP , JavaScript , Bootstrap.

alSatoshi

Link : <https://alSatoshi.com>

Technologies Utilized : React JS , Tailwind CSS , React-router-dom ,Framer motion , Antd , EmailJS.

Reactify

Link : <https://reactify-npouriaa.netlify.app>

Technologies Utilized : React JS , CSS , Tailwind CSS , React-router-dom ,Vidstack , Antd and Firebase .

CryptoVerse (Crypto tracker)

Link : <https://cryptoverse-npouriaa.netlify.app>

Source code : <https://b2n.ir/s88316>

Technologies Utilized : React JS , TypeScript , Tailwind CSS , CSS , Material UI , Framer motion , Chart JS , React-router-dom , Axios , Coin gecko API and React Icons .

Private Real time Chat App

Link : <https://online-chat-app-npouriaa.netlify.app>

Source Code : <https://b2n.ir/t14673>

Technologies Utilized : React JS , Tailwind CSS , Antd , React-router-dom and Firebase.
